Wet Type Fish Feed Pellet Making Machine

Different from dry type fish feed pellet making machine, wet type fish feed making machine requires a boiler to continuously provide steam to the conditioner. The floating fish pellets made by this wet type fish feed pellet making machine has better quality, and can float on the water surface for more than 12 hours. This wet type fish feed extruder can also be used to make sinking fish feed pellets, other kind of aquatic feed as well as pet food for cat, dog, etc.

Wet Type Fish Feed Extruder Technical Data
