Dry Type Fish Feed Pellet Making Machine

Dry type fish feed extruder is used to process various kinds of grains into high-grade aquatic feed pellets for fish, crab, catfish, shrimps, etc. This dry type fish feed extruder is suitable for small and medium aquaculture farm or feed pellets processing factory. Compared with buying fish feed, making your own fish feed pellets by the fish feed extruder is really cost effective. Fish feed pellets have wonderful taste and high nutrition. And the size of pelleted fish food can be adjusted according to your need.

Dry Type Fish Feed Extruder Technical Data
