### **Electric Feed Hammer Mill**

Electric feed hammer mill is an important equipment in fish feed pellets plant and animal feed pellet manufacturing factory. Because some raw materials are not available for feed pellet making machine directly, such as corn, soybean, wheat, groundnut as well as other large size feed stuffs. These kind of materials need to be crushed into powdery material firstly with electric crusher or hammer mill. This electric feed hammer mill is used to crush raw materials with diameter of less than 50mm.

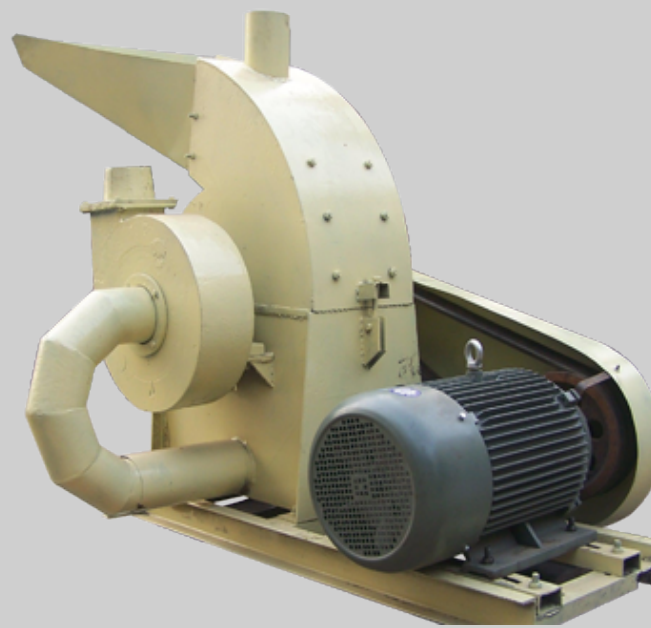

#### **Electric Feed Hammer Mill Technical Data**

| Model | Principal Axis        | Rotor Working | Hammer   | Capacity(kg/h) | Power(kw) |
|-------|-----------------------|---------------|----------|----------------|-----------|
|       | Rotation Rate (min/n) | Diameter (mm) | Quantity |                |           |
| FY360 | 4000                  | 360           | 16       | 150-250        | 5.5-7.5   |
| FY400 | 4000                  | 400           | 16       | 250-500        | 7.5-11    |
| FY500 | 4000                  | 500           | 24       | 500-700        | 11-15     |
